

Butler XP™ Push For Service System

www.lrspagers.co.uk

Includes spaces for labels promoting your restaurant or vendors.

Contact anyone, anywhere on-site with this powerful, weatherproof paging system

The ability to contact someone on-site instantly is vital in any industry. With the powerful Butler XP paging system, you can do it easily. Just press the button and it immediately sends a silent page to anyone in your building wearing an LRS alphanumeric pager. With a range of one-quarter mile, it will reach them no matter where they are.

The Butler XP is perfect for every kind of business. It's 100% weatherproof and made of heavy-duty lexan plastic so it can be used anywhere — indoors or outdoors. Customers can use it to contact staff members when they need help or service. Staff members can use it to contact each other when they need assistance.

Warehouses. Restaurants. Bowling centers. Car Washes. Marinas. Even beaches and pools. The uses for the Butler XP are endless. It helps enhance customer satisfaction, improve service, boost staff efficiency, increase sales and lower operation costs.

Benefits

- **Greater Customer Satisfaction** — Gives customers “on-demand” service which promotes faster service and happier customers.
- **Sell More in Less Time** — Since customers get faster service, more people can be served in less time which means you sell more
- **Promotes Your Business** — Labels promoting your restaurant or retail business can be applied on the top and bottom of the transmitter to help you earn even more revenue
- **Superior Staff Efficiency** — Whether serving customers or helping each other, instant communication helps dramatically improve staff efficiency
- **Reduced Labor Costs** — Since staff members know instantly when your customers need service, fewer sales employees are needed to serve them
- **Works Anywhere Indoors or Outdoors** — Sealed, heavy-duty casing is tamper proof and 100% waterproof so you can use it virtually anywhere inside or outside
- **Multiple Mounting Options** — Transmitter can be mounted in different ways: Rubber Bands (included), Velcro Straps (included) and optional Umbrella Clip (see back page)

With the push of a button, Butler XP sends a silent page instantly to anyone wearing an LRS alphanumeric pager.

The Butler XP works with both LRS Alphanumeric pagers.

Rechargeable Alphanumeric

Battery-Operated Alphanumeric

Multiple Installation Options

Mount it on a pole with Velcro Strips or Rubber Bands (both included).

Mount it on a table so guests can page for service.
