About the Opus T1

This ultra-simple, highly-affordable, licensed business radio couples the convenience of a compact, robust and functional design with all the necessary features and power of a licensed business radio.

Why choose the Opus T1?

The Opus T1 is the ideal choice for any business or organisation looking for entry-level licensed radios, or those wishing to upgrade from licence-free products.

The Opus T1 lets you take advantage of improved audio quality, better talk-range, enhanced message privacy, reduced interference and a more robust product. It's also very simple to use.

A growing range of accessories, such as batteries, chargers, carry cases, headsets and microphones, are also available to suit your individual requirements.

Do I need a licence?

Use of your Opus T1 requires a low cost Business Radio (UK General) licence - just one licence will cover your whole organisation. As your radio system expands and develops, your Opus radios can grow with you - each unit can be configured to use on-site or wide-area PBR licence channels. Your Opus dealer can assist you with any licensing questions.
