Pager

Long Range Systems, a pioneer in the on premise paging industry, listened to the needs of our customers and designed a product specifically for nurseries. We feature rechargeable and battery-operated nursery pagers. Parents can have peace-of-mind knowing they will be contacted immediately if they are needed. Whether you have one or multiple nurseries, our systems are the most effective tool for locating parents.

Our systems feature plug and play installation. There's no programming or set up to complete. Simply enter the number of the pager you wish to contact and press enter.

## Benefits:

- Parents are located immediately
- Silent paging system eliminates the distraction of light boards
- First-time visitors as well as members have peace-of-mind leaving their children in the nursery
- Parents can be notified anywhere such as: Sunday school rooms, fellowship halls, restrooms, parking lots, gymnasiums, family life centers, etc.
- Establishes a more sophisticated security measure for child pick-up

## Features:

- **Wireless Programmability** - Pager numbers are easily programmed from the transmitter.
- **Improved Range** - Up to 2 miles
- **Anti-theft & Auto-Locate** - Each battery-operated pager has a built in warning system that beeps when pagers go out of range. This lets parents know when they have exceeded boundaries.
- **Text Messages** - numeric pagers are programmed with 75 different fixed messages such as: Diaper Change, Nursery, Room, Child Crying. The message appears on the battery operated numeric pager (only) letting you know the exact reason for the page.
- **Programmable ON/OFF** - Prevents battery operated pagers from being accidentally shut off. Rechargeable service pagers cannot be turned off.
- **Auto Shut Off** - Programs all battery operated pagers to automatically shut off at a specific time to conserve battery life. Rechargeable service pagers go to sleep when placed in the charging rack.

## Specifications:

- 2 Watts of power
- UHF Frequency \* UK Frequency MHz
- 4" w x 8" h x 2.5" d
- 9V AC Power supply
